

Supplier Compliance Improvement Request Form

(Based on IBCA Guidelines)

This form is completed by a customer to report label compliance problems to the supplier.

The samples below show the IBCA guidelines requirements. More details are available here: <http://ibcaweb.org/guidelines/pils.htm>

Please use page two to indicate **YOUR** level of compliance to the IBCA Label standards.

About the bar codes (symbol):

1. The 12 digit U.P.C. (symbol) should never be displayed on a shipping carton unless the carton is, in fact, the lowest unit of sale (quantity one) that would be purchased by a customer at the point of sale.
2. Product identification on cartons must contain the 14 digit global trade item number (GTIN) in either the 14 Digit ITF (interleaved two of five) symbol or the 14 digit Code 128 symbol. The reason for the two different symbols is that the ITF is designed to be printed directly on cardboard and the 128 is to be printed on labels.

The Level of Compliance to IBCA Label Standards is Indicated Below

Company Name of Supplier _____ Date _____

Name of My Company _____ Date _____

Contact Person for Label Issues _____

Email: _____

Phone: _____

Comments: _____

From R Company Name Address (8 to 12 point)	Ship to: R Company Name Address (12 to 14 point)	Shipping labels R = required O = optional
Purchase Order Number (8 to 12 point)		
O Bar Code for DC	Destination code (if available) R Lake Dr (36 point min.)	Multipack require Manufacturer , GTIN in bar code and Quantity
SSCC  (00) 1 0065300 55555555 8	No Name Company BG 103 Qty. 20 ea. Bright Green Stuff  (01)19421123450011	Item require UPC and Description
